MN Tracking Program

Minnesota Public Health Data Access

health.mn.gov/mndata

Explore Health & Environmental Data

Immediate access to maps, queries
and facts & figures

Download maps, customized tables
and charts

Compare data across race, age, gender
and income

Search for state and local data
by geographic region and time

Access national data resources
for broader comparisons

Receive Data Updates

Stay informed about new data
and public health indicators

Request Consultation

Get help on your next project

Schedule a demonstration or training

Learn how to use public health data
to create healthy communities, support grant
proposals and inform public policy.

health.mn.gov/mndata

*New topics and data will be added as they become available
from Centers for Disease Control and Prevention
and MN Environmental Public Health Tracking.*
